## ABOUT ME

I'm Beka Merebashvili, a 24-year-old junior React developer with a strong passion for web development. I am highly motivated and detail-oriented, specializing in creating dynamic and user-friendly websites that meet the needs of clients and end-users. I excel in communication and collaboration, which enables me to work seamlessly with cross-functional teams.

---

## EXPERIENCE/ PROJECTS

I've dedicated 11 months to hands-on learning through diverse projects, both individual and collaborative. These projects focused on creating responsive and user-friendly web applications, requiring me to work with various technologies and frameworks. This learning journey has enriched my skills and provided valuable insights into the development lifecycle, project management, and effective teamwork.
